- Best Practice Strategies

Richard Love
Founder & President, Richard Love Associates, Inc.

Since 1972, Richard Love, founder and president of RLA has worked with and helped industrial maintenance personnel solve critical plant equipment problems. RLA currently works with industrial manufacturing and motor repair facilities throughout the USA, providing proven motor management services that eliminate motor failures and improve maintenance reliability.

WORKSHOP: AC & DC Industrial Motors

This 3-day workshop will cover alternating and direct current motor operation, application, maintenance and testing. Following the classroom instruction, a shop tour is conducted, giving attendees the opportunity to see and participate in many of the motor repair processes as well as motor repair testing and measurement procedures that will be covered in the class.

After completing this workshop, attendees will have a clear understanding of alternating and direct current motors, including routine and condition-based best-practice maintenance procedures, spare motor maintenance, motor repair standards testing and measurements, motor troubleshooting, motor repair/rebuild expectations, and effective processes for implementing a precision motor management program.

WHEN:

April 2-4, 2019

Times: April 2 and 3 8:00 a.m. - 4:00 p.m. CST
April 4 8:00 a.m. - 12:00 p.m. CST
