

Cost-effective solutions keep your servo and spindle motors, boards, and drives up and running.

IPS single-source capabilities include electronic repair services on multiple brands, with guaranteed cost savings, quick turnaround, and special expedited services.

Our dedicated industrial electronic repair lab and full-service machine shop for AC & DC servo motors provides preventive maintenance, testing and repair of feedback devices, windings, repair of shafts, housings and magnet assemblies and closed loop testing on custom test stands. We also offer surplus replacement in many cases.

IPS experienced technicians understand your operating issues and have the technical resources to provide high-quality, documented testing and repairs for resolver-based closed-loop servo and spindle motors, control boards and drives, and exchange services for servo motors. All repairs are backed by our 12-month warranty from date of shipment.

Stuff:

- ✓ High-quality, documented repairs
- ✓ Testing for most encoder and resolver-based closed-loop servo and spindle motors
- ✓ Exchange services
- ✓ Magnet recharging
- ✓ Stator and armature rewinds
- ✓ Digital, serial and incremental encoder testing including Indramat, Fanuc, Allen Bradley and Stegmann
- ✓ High-speed dynamic balancing and vibration testing
- ✓ Full-service machine shop
- ✓ Fast turn times, competitive pricing and local customer service
