

# THE VALUE OF IPS MOTOR SERVICE AND REPAIR

The average lawnmower costs about \$650. Labor rates for lawnmower repair run about \$100 an hour.

Your motors cost anywhere from \$20,000 to \$1 million and up.

Can you trust a service provider who charges lawnmower repair rates?

## What does that additional cost buy you with IPS?

### OEM-authorized repair

Dedicated, authorized small electric motor repair for low-voltage units up to 690VAC + Dedicated, authorized large and extra-large AC & DC motor repair to 15 kV.

### Trained, certified repair technicians

IPS repair technicians learn new technical skills at IPSU, taught by industry experts in electric motor & generator service and repair.

### State-of-the-art testing

IPS offers comprehensive testing to document "as received" and "as shipped" asset performance.

### The industry's biggest toolbox
